# EDUCATION

# HEALTH CARE

The Institute for Community Inclusion (ICI) promotes the full inclusion of people with disabilities in every aspect of society. We do this through training, research, consultation, and clinical and employment services. Our projects increase disability inclusion throughout New England, across the United States, and internationally.

The ICI is a program of the University of Massachusetts Boston and Children's Hospital Boston. We are part of the national network of University Centers for Excellence in Developmental Disabilities.

# COMMUNITY LIFE

national and community service  
inclusive volunteer opportunities  
service leading to employment and  
postsecondary education  
partnerships with community  
organizations
